

MEMBER ALERT
Change in EAP Provider
January 10, 2023

NBSIA partners with Schools Insurance Authority (SIA) for Employee Assistance Program (EAP) benefits through Managed Health Network (MHN). We currently have 11 NBSIA Members participating in the EAP program.

Recently, MHN announced that they will NOT be renewing any programs after June 30, 2023.

At this time, we are working with SIA for replacement services through a Request for Proposal (RFP) process with other EAP providers. Our involvement in the process will ensure that our participating EAP members will continue to provide competitive, high-quality assistance programs for their employees.

Further discussion about assistance programs will be had at the upcoming Strategic Planning Session, and we provide follow-up notifications about this change in the coming months.
