

EQUIPMENT OPERATOR CERTIFICATION

Instructed by Jeremy Hatch,
NBSIA Safety Specialist and IVES Certified Trainer

This on-site safety training teaches safe and proper use of forklifts, aerial boom lifts or scissor lifts. The training includes classroom instruction, a practical driving portion, and IVES certification for those who pass the driving and operation test.

Course Length:

Classroom Portion: 2 hours

Practical Driving Portion: Minimum of 30 minutes per employee

Course Limited to 6 Employees Per Session

Cost:

Training is provided for free; IVES certification costs \$30 per person and is eligible to be paid for using Safety Credit Funds.
