

SOLANO COUNTY OFFICE OF EDUCATION

OBJECTION TO THE PROVIDING OF EMERGENCY MEDICAL CARE

Unless the Student only has one parent or legal guardian, or this Objection is submitted with a valid Court Order authorizing only one parent/guardian to make all health care decisions for a student, this Objection <u>must</u> be signed by both parents/legal guardians in order to be valid.

Signature Me declare, under the penalty of perjury, that we hold genuine and sincere personal religious beliefs which are inconsistent with likely or expected emergency medical procedures that might be used on the Student. I/we may cross out that section of any Field Trip, Athletic Participation, or Activity Participation form that would otherwise authorize the COE to render or direct emergency medical care in such situations, and that it is my obligation to do so to help ensure that my/our wishes and directives are also supported in those forms.	Student Name	Birthdate
In keeping with Education Code Section 49408 and the County Office of Education's ("COF") requirements, I/we have executed an emergency contact information card or form. Pursuant to Education Code Section 49407, however, I/we object to the COE providing emergency medical care, or directing care to be provided by an emergency health care responder or provider, beyond basic first aid, general comfort, a prompt telephone call to emergency services (911), and prompt and reasonable efforts to reach me/us by telephone or other means described in the emergency contact card or form. This written Objection will be acted upon by the COE in accordance with its terms and conditions within limited time constraints, such that I/we understand that I/we cannot direct the COE, its employees or volunteers (verbally or in any other form) to take any action inconsistent with this Objection during an emergency situation. I/we understand and agree that in light of our Objection (1) the COE and its trustees, employees, volunteers, and agents are released from any potential duty to render or direct emergency medical care beyond those limited activities listed above, and (2) I/we are waiving any potential claim that I/we or the Student may have against the COE and its trustees, employees, volunteers, and agents that might, in some manner, arise from this Objection. Because of this Objection, the Student may be denied the opportunity to participate in field trips and other extracurricular activities presenting potential risks of harm or death that might arise from this Objection. Because of this Objection, the Student may be denied the opportunity to participate in field trips and other extracurricular activities presenting potential risks of harm or injury that could trigger a need for emergency medical care or assistance unless I/we also affirmatively state below that this Objection is based on my/our religious beliefs. Execution of Field Trip, Athletic Participation, Activity Participation forms do not override this Objection. Dur	Address	Telephone
