

Injury care when and where you need it.

Tired of the waiting room?
Can't find time for the doctor?

With Concentra Telemed, you can use your computer or smartphone to see a doctor right away—minimal waiting, no interruptions. Within minutes of signing up, you'll connect with a doctor who can help you get better, faster. Using video conferencing, they'll diagnose, recommend treatment, and even prescribe medication if you need it.* It's health care that works for you when you need it, where you need it.

What we treat

Concentra Telemed can treat a lot of the things you normally visit a medical center for, such as:

- Minor functional movement injuries
- Bruises
- Scrapes
- Sprains and strains
- Rashes and burns
- Repetitive use injuries
- Contusions

Concentra Telemed is primarily designed to provide immediate attention for minor medical issues. Serious injuries—or injuries that need hands-on care, like stitches—will still need to be seen in-person by a clinician. Depending upon the severity of your injury, your physician may refer you to the closest Concentra medical center or emergency room for further treatment.

How you benefit

Talk to a doctor right when you need to. With Concentra Telemed, you can see your doctor when it's easiest for you—at work, at home, or on the go. And with extended availability—7am-11pm, seven days a week—chances are we're here when you need us.

Get treatment right away—minimal waiting, no interruptions. Instead of waiting in a waiting room, you can do whatever you need to while you're waiting for a doctor. When they're ready, you'll get a text and you can see them immediately. It's that easy.

Relax—you're in good hands. Concentra Telemed doctors are trained in workforce health, so they understand the workers' compensation system. You don't have to worry that they'll know how to handle a work injury—instead, you can focus on getting better.

Know your privacy is our priority. Concentra Telemed uses advanced security software to protect your information and ensure your privacy, and your visit is not recorded.
